BUILD-TO-SUIT

- 100% financing means no capital outlay for customers
- 40 years of building experience ensures a facility that meets customer needs
- Design/build solutions with attractive lease options

Supply Chain Challenges

Companies face a variety of supply chain challenges that generally fall within four main areas:

- Warehousing & Distribution
- Transportation Management
- Customer Order Fulfillment
- Logistics Technology

Supply Chain Challenges - cont.

Lack of resources focused on logistics can lead to sub-optimal performance in key areas. For instance:

- Non-strategic warehouse location(s) = increased transportation costs
- Misaligned transportation strategy = costly inefficiencies and delays
- Inefficient pick/pack strategy = costly overtime

Lack of logistics systems = absence of data to make effective decisions

WOW Solution: Consulting Services

WOW utilizes our Engineering services to help Customers overcome these supply chain challenges. Our value includes:

- Consultative approach that focuses on understanding and meeting customer requirements
- Process-driven solutions that provide efficiency and cost reductions, but remain grounded in the reality of business constraints
- Full understanding of operations and logistics challenges
- Knowledge of industry standards and best practices
- Ability to implement any recommended solutions

WOW Consulting Services - cont.

WOW offers consulting services focused on various decision making levels

Network Optimization **Material Flow** Location Analysis Deconsolidation Centers Facility Layout **Space Utilization** Pick / Pack Strategy
