TRANSPORTATION SERVICES

Delivering Quality Solutions

From negotiating with carriers to dealing with missed loads, trailer rejections, site issues, and more, transportation can be one of the most complex, time-consuming, and expensive parts of running a business. WOW Logistics is a non-asset-based transportation broker focused on market intelligence, customer service, and carrier regulatory compliance. Our transportation program includes two service levels: **brokerage services** and our **fully-outsourced managed transportation solution**, where we act as your transportation department and handle everything from lane procurement to billing. With more than 100 years of combined industry experience, our knowledgeable Certified Transportation Brokers (CTB) take care of all the details, from pickup to delivery. Along the way, our top-notch systems and standards keep your loads running smoothly with exceptional service, quality carriers, and competitive rates.
