

THIRD-PARTY LOGISTICS

Services

Maximize Your Storage Efficiency

Fluctuating inventory levels lead to changes in labor, transportation, and space requirements. Many companies choose to outsource their storage to acquire additional space and resources.

WOW Logistics is an industry-leading storage provider with more than 45 years of experience offering ambient and cold storage solutions. Our third-party logistics (3PL) facilities use a top-tier warehouse management system (WMS) that's fully configurable to our customer's unique requirements. Additionally, WOW's Customer Service Portal provides 24/7 access to invoices, release orders, ownership transfers, and trailer inspection records.

FLEXIBILITY AND SAVINGS

- Flexibility to adjust as requirements change and only pay for needed space
- All-inclusive pricing structure
- Resources to locate a warehouse in the right geographic location

FOOD PRODUCT EXPERTISE

- Stringent ASI audits with all locations maintaining an average score of 98%
- Developed our own food safety manual for training and process management
- Effective application of Food Safety Modernization Act (FSMA) and Hazard Analysis & Critical Control Point (HACCP) principles

SUPERIOR SYSTEMS

- Access to top-tier WMS that provides full product visibility
- Cycle counting and spot checks to validate inventory numbers
- Automated facility audits that drive food safety regulatory compliance
